Studio

— AUTUMN WINTER 2023 —

Urbancode Studio collection has versatility as its key design element.

This season has style details that fully hybridise the essence and function to new heights.
Taking the best of one coat and mixing with favourite details of another.

Reversibility is Urbancode's U.S.P. In this collection we have maximised the joy of this feature
and taken it to a new level where the coats have double personalities.

Checkout the following pages, the result of this approach is a garment that you can ***treasure forever.***
